

Okaparnis Side Quest – Fisherperson!

You find Tira's father near the Underground Lake next to the Glasslands. He is fishing and tells you about his goal in life... He wants to collect one of every fish on Kiphloria! He is getting old and, more than anything, he wants to see Tira and her mother again, so he asks you to catch all the fish for him. He hands you his trusty fishing rod, gives you a list of all the fish on Kiphloria, and then walks back home to Okaparnis.

There are 20 fish to be caught among the 7 different fishing areas on Kiphloria. In order to successfully catch a fish, you must complete a task. Once you have caught a fish, you will roll dice to determine which type you will pull out of the water:
